CLINICAL INTERNSHIP EXPERIENCE

Medical College Hospital — Six-Month Clinical Internship

Delivered compassionate, patient-centered care as part of a multidisciplinary team (MDT) across eight clinical rotations, building clinical competence, leadership readiness, and reflective practice under senior nurse supervision.

- Delivered bedside care, medication administration, and vital-sign monitoring across Medical & Surgical Wards and ICU/Critical Care, following individualized care plans under senior nurse supervision.
- Supported triage, emergency assessment, and perioperative care in the Emergency Department and Operation Theatre, maintaining infection-control protocols during high-pressure situations.
- Provided compassionate antenatal, postnatal, and pediatric/NICU care as part of a multidisciplinary team (MDT), strengthening family communication and patient-centered care.
- Practiced therapeutic communication in Psychiatry and delivered patient education and preventive counselling in OPD & Community Health, building reflective practice and clinical competence.
